

Jaladi Deepika

Code:

```
import java.util.*;
public class Main
{
    public static void main(String[] args) {
        Scanner in = new Scanner(System.in);
        System.out.print("Enter a number: ");
        int number = in.nextInt();
        if (number > 0) {
            System.out.println("The number is positive.");
        } else if (number < 0) {
            System.out.println("The number is negative.");
        } else {
            System.out.println("The number is zero.");
        }
    }
}
```

Output:

```
Enter a number: 1234
The number is positive.
```

```
Enter a number: -12
The number is negative.
```

```
Enter a number: 0
The number is zero.
```
